

Disneyland Paris Unveils Plans for New Marvel-Themed Attraction

Today, Disneyland Paris revealed plans to bring the Marvel Super Heroes to life in an epic way at Walt Disney Studios Park with a completely new Marvel-themed attraction.

The news comes from Walt Disney Parks and Resorts Chairman Bob Chapek during the *D23 Expo Japan*, where more than 2000 fans were the first to hear about the latest projects in development for Disney guests all over the world, including those for Disneyland Paris.

The new development builds on the momentum of the resort's 25th Anniversary celebration and follows the recent news that Walt Disney Parks and Resorts is preparing to incorporate more popular stories and characters into Europe's top tourist destination, giving Disneyland Paris guests even more entertainment experiences and attractions.

New Marvel-Themed Attraction

Rock 'n' Roller Coaster Starring Aerosmith will be completely reimagined into a new Marvel-themed attraction where riders will team up with Iron Man and their favorite Avengers on a high-speed, hyper-kinetic adventure.

The addition of the new attraction provides a permanent presence of Marvel making this Park even more of a must-do for guests.

Disney's Hotel New York – The Art of Marvel

Additionally *Disney's Hotel New York*® will soon be reimagined to become *Disney's Hotel New York – The Art of Marvel*, becoming the first Disney Hotel to showcase the thrilling world of the Avengers. With exclusive artwork and a new design, it will be a residence fit for Tony Stark himself.

More Marvel Now!

And for guests who can't wait to experience Marvel at Disneyland Paris, The Avengers will assemble this June during *Marvel Summer of Super Heroes*, which will bring guests face-to-face with Captain America, Spider-Man, Star-Lord and Black Widow. These heroes will also take the stage in a live-action super-production featuring cutting-edge special effects, spectacular projections, and lots of other surprises.

"These ambitious Marvel developments across Disneyland Paris will create brand new immersive Super Hero experiences for our guests, and will enhance the overall appeal of our resort," said Catherine Powell, Présidente of Euro Disney S.A.S.

Europe's number one tourist destination, Disneyland Paris boasts two spectacular theme parks (Disneyland Park and Walt Disney Studios Park) and seven themed Disney hotels with 5,800 rooms (more than 2,700 rooms are available in Selected and Associated Hotels). Two full-service convention centers and a world-class 27-hole golf course are also present. In addition to this, the destination is home to Disney Village - one of the largest entertainment complexes in the Ile-de-France region. Spread over more than 30,000m², Disney Village proposes themed dining, shopping and cinema experiences. Disneyland Paris comprises 59 attractions, 63 shops, and 55 restaurants.
