COMMUNITY INVOLVEMENT

Disneyland Paris is dedicated to inspiring lasting and positive change in the community, including championing the well-being of children. That community support is most visible through the Disney VolunTEARS program, a company-sponsored initiative supporting employee volunteerism. Every year, more than 1,000 Disney VolunTEARS bring their talents, expertise, enthusiasm and spare time to the community. In 2019, the company supported more than 1,500 community outreach actions with more than 100 European non-profits, including onsite daytime events at the resort, wishes granted to children and Disney VolunTEARS visits to medical centers. Disney VolunTEARS are also involved in major solidarity events designed to raise awareness and funds for important local and national causes.

THE ENVIRONMENT

Disneyland Paris strikes a balance between protecting the environment and growing its business with the long-term goal to set the standard in sustainability for companies in the European leisure and tourism industry, carrying on the strong belief that nature must be protected and preserved which is deeply rooted in Walt Disney's vision and legacy. The cornerstones of this approach at the resort are conserving water, energy and ecosystems; reducing waste and greenhouse gas emissions; and inspiring others to take action for the environment. Many improvements are regularly made, such as operating an on-site water treatment station and geothermal energy facility, implementing renewable energy and cleaner fuel alternatives, reducing single-use plastic waste and supporting environmental initiatives to raise awareness for guests and cast members. Disneyland Paris is committed to limiting its impact on the environment and to make the Disney experience even more magical for current and future generations.

ECONOMIC IMPACT
